FINISHES

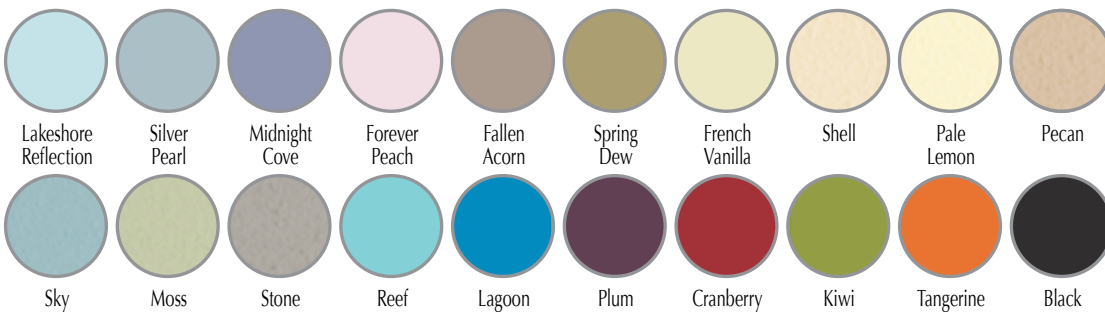

Color, texture, pattern and sophisticated tailoring combine to exceed your expectations. Sound Concepts understands the art of applying coatings, fabrics and vinyls to ceiling and wall panels and stands ready to collaborate for a successful project. Two of our unique acoustically transparent finishes are featured below

EUROMAT

A proprietary acoustically transparent, flat latex coating that gives our products the look of a level 5 drywall finish with a very fine texture. EUROMAT also provides you with the opportunity to color match the colorway on your project or select from a standard color pallet

Standard EUROMAT White

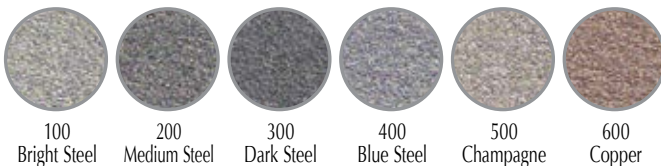

Standard EUROMAT colors:

option: color matching to all major paint manufactures

EUROMATALLIC

A proprietary metallic water based emulsion that combines micaceous iron oxide and stainless steel leaf with acrylic resins for a limited line of metallic colorations

Standard EUROMATALLIC colors:

Metallic color images vary substantially from the physical samples. Physical samples are avail upon request
