Subject: LEED Documentation – Knauf “Yellow” Acoustical Smooth Board

All Knauf OEM Board Insulation products, including Knauf “Yellow” Acoustical Smooth Board products, are produced in Shelbyville, IN, which means they may be within 500 miles of the project and qualify as a regional material. (*Materials and Resources 5.1*)

Extraction points for the raw materials used to produce fiber glass insulation in Shelbyville, IN are as follows:

<u>Raw Material</u>	<u>Extraction Point</u>	<u>% Product Weight</u>
Sand	Lewisport, KY	23%
Limestone	Bloomington, IN	3%
Soda Ash	Searles Valley, CA	10%
Dolomite	Manitowoc, WI	4%
Borax	Searles Valley, CA	10%
Bottle Cullet	Chicago, IL	30%
Bottle Cullet	Cleveland, OH	10%
Bottle Cullet	Dayton, OH	10%

All Knauf fiber glass insulation products are manufactured using 50% “post-consumer” recovered materials. No qualifying “post-industrial” or “pre-consumer” recovered materials are used. (*Materials and Resources 4.1 and 4.2*)

If you need any further information, please do not hesitate to contact me.

Sincerely,

KNAUF INSULATION
